

# TERRA FIRMA FARM

## Spring School Vacation Day Camp 2007

---

Terra Firma Farm is very excited to welcome kids ages 5-12 to its April Vacation Day Camp! At Terra Firma Farm's spring day camp children will have a good time and learn about how plants and animals come to life in early spring! Children will experience the beginning of spring on the farm through activities interacting with the new arrivals of plants and animals. Each day has its own theme, leading us on adventures through the pastures, fields and barns. So put on your boots, there is so much to see and do!!

### Monday: Spring on the Farm

This is your chance to work with the animals and the farmer here at the farm for the whole day. We'll feed the animals breakfast in the morning, dinner at night, and take care of them in between. The best part of the day will be welcoming all the new arrivals! We will spend time with newborn goats, pigs, chickens, and sheep!

### Tuesday: All about Goats!

Goats are fun because they all have different personalities and have different little habits that can be amusing or interesting. Goats are very affectionate and they like to just hang around people and get a good scratch. Most goats' favorite scratchy spot is around their shoulder but some even liked to be scratched in between their toes!! Today we will spend the day with the new kids and their moms. We will teach them to walk on leads and maybe even a few tricks.

### Wednesday: Water Wizards

Let's celebrate those April Showers with some Water Wizard Experiments!! We will explore water around the farm at the brook and pond. Then we will try our hands at Wizardry with some Water Wizard Experiments and Games!!!

### Thursday: Little Sprouts & Flower Power

Spring is a magical time and busy season at the farm for the animals and for the plants! We will learn all about seeds and flowers and all their a-maze-ing parts. We will start some seeds for the Farm as well as some a-maze-ing projects for you to bring home too!

### Friday: Mud Madness

No one loves the mud more than our pigs!! Come and celebrate mud with us as we explore the mud season on the farm!! We will investigate the mud in the pig pen, in the woods, near the brook and in the garden. We will then make some delicious edible mud of our own!!

Vacation camp will run Monday through Friday 8:30AM to 3:30PM. Campers may sign up for a day at a time or the whole week. The cost of each session is \$275/week or \$55/day.
